AJINKYA PUNDLE

WEB DEVELOPER//WEB DESIGNER

+91-9422350340 | ajinkyapundle50@gmail.com | Github | Personal Website

SYNOPSIS

A highly motivated and eager-to-learn aspiring Front-End Developer with a strong foundation in HTML, CSS, and JavaScript. Passionate about creating responsive and user-centric web experiences, with a growing interest in front-end frameworks like React.js.

PROFILE SUMMARY

- CDAC certified (Post Graduation Diploma in Advanced Computing) having 2 years of experience as Game Tester at Ubisoft, Pune
- Proficient in HTML, CSS, JavaScript, and frameworks including React.js and Node.js
- Experienced in building responsive, user-friendly websites and web applications with a focus on performance and usability
- Skilled in optimizing code for clean, efficient, and maintainable solutions
- Strong collaborative skills in Agile teams, with experience in troubleshooting and problem-solving
- Committed to building secure, scalable, and accessible web solutions that meet business goals and enhance user experience

TECHNICAL SKILLS

- **HTML5:** Structuring web pages using semantic elements, forms, and multimedia.
- **CSS:** Advanced styling techniques, including Flex, Grid Layout, animations, and responsive design
- **Responsive Web Design:** Expertise in creating mobile-first, responsive layouts using media queries and frameworks like **Bootstrap** & **Tailwind**
- **JavaScript:** Proficient in modern JavaScript features such as promises, async/await, and arrow functions
- **JSX:** Writing and rendering HTML elements using JSX within React component
- **React.js:** Building dynamic and interactive user interfaces with React components, hooks, and state management
- **Figma:** Conversant in Figma for UI/UX design
- **Manual Testing**: Functional, Regression, and Smoke testing to ensure the stability and functionality of the application, also proficient in JIRA tool

WORK EXPERIENCE

Ubisoft Entertainment India Private Limited | QC Game Tester | August 2021 - September 2023 | Pune

- Executed manual testing on PC Games & Mobile Games ensuring high-quality releases through comprehensive test plans & test cases
- Performed functional, regression, and smoke testing to ensure the stability and functionality of the game
- Identified, reported, and tracked defects in Jira, ensuring clear communication of issues, severity, probability to the development team, managed and prioritized bug reports in Jira, ensuring issues were addressed and resolved in a timely manner, and re-tested fixes as needed
- Verified that game met requirements by conducting User Acceptance Testing (UAT) based on real-world scenarios

- Participated in daily stand-up meetings and sprint reviews hence contributing to the continuous improvement during testing stages

Projects
